That Shows You Exactly How
to Keep Your Computer in
Pristine Tip-Top Condition!**

Is your computer running slowly?

Are you getting problems with your computer or laptop?

Are you frightened at the thought of ongoing computer maintenance?

Afraid that you might click on something that you shouldn't, which could seriously affect the performance of your pc / computer system?

Let me assure you now...

There is nothing to be frightened of!

Calling All Computer Technophobes:

Hello - My name is Mark Raffety -- Computer Maintenance Engineer

Welcome to my website...

What I would love to share with you today, is a top rated guide that I have personally created for all computer technophobes.

I've written this with someone just like **you** in mind... it's called...

The PC Longevity Guide

This guide is all about sharing with you, the most simple and easy to implement strategies - that will have *your* computer running at a very fast pace indeed, for many years to come.

What's more, nothing in this guide is too complicated to understand!

You can literally look over my shoulder as I share with you the exact simple and easy to understand steps, that you can take to having a very fast and completely secure pc at your fingertips.

Even more, this professional computer maintenance guide ... really can **SAVE YOU Hundreds** if not Thousands of Dollars and will help ensure a very secure and safe personal computer system.

There is nothing complicated in my **PC Longevity Guide** at all!

I have been involved with computer maintenance for a number of years and during that time I've been called upon, countless times to fix computers on behalf of many companies and individuals in my city.

What has amazed me during this time spent in my professional field of computer maintenance, is the same recurring problems cropping up over and over again. Which is why I decided to write this comprehensive but very simple and easy to understand reference guide to help individuals, just like **YOU!**

Computer Maintenance Need Not Be a Chore...

Simply by following my step-by-step guidance system, you really can, no matter what your computer ability is, have a **super blazing hot and very fast, secure, safe computer system.**

Would you like to know how *you* can have a super fast computer, that hardly ever slows down and remains *free* from annoying errors?

Would that be an awesome blessing to you?

Would **you** appreciate learning the essential basics to computer maintenance, giving you years of worry free computing?

Never fear again losing **your** all important data. Never fearing opening up **your** computer to spyware or malware? Never fearing online nasties and viruses. Would that make **YOU** feel good?

With **The PC Longevity Guide** by your side, *you* can do just that and a whole lot more.

I tell you the exact programs that *you need* that the professionals use to maintain their computers...

And Best of All They're All Completely FREE From Within This Guide!

Yes! You read that completely right!

I'm about to share with you, exactly how **you** can get your hands on these special computer programs, completely and utterly **FREE!**

- **How to secure your computer against malware and infections that can seriously slow your computer or laptop down!**

- **How to tweak your computer settings for the best performance possible!**
- **How to protect your credit card and online identity!**
- **How to have your computer running at blazing top speed - all year round... at the click of your mouse!**

And lot's more...

The fact is that if you are a computer newbie... frightened of computers, frightened of malware, infections or other online nasties... you need **The PC Longevity Guide** without fail!

Let me reassure you again from my professional experience as a computer maintenance engineer...

The PC Longevity Guide is VERY easy to understand!

There is no technical jargon! There are no long words. I keep everything just as simple as it's possible to get. I've put myself in *your* shoes to see the problem through *your* unique perspective and written this guide completely with *you* in mind.

Simply look over my shoulder as I show you with very simple instructions and screenshots... **exactly what to click, where and in what order.**

If you follow along, you simply cannot fail!

The Best Part Is...

That at the end, you can sit back, relax, safe in the knowledge that you now have at your very own fingertips...

A very fast and stable computer system and...

What's more, with my regular training tips by your side, *your* computer will stay in this tip-top condition for as long as *you* decide to keep it!

Simply follow in my footsteps as I show **YOU** exactly what to do!

It doesn't take a rocket scientist to understand this. You don't need to be a computer whiz-kid to take on board this timely and highly valuable information. You certainly don't need a degree.

I guarantee you, that anyone, absolutely anyone will be able to understand the process very quickly and easily.

Whether you are 10 years old or 100 years old - just about anyone can implement these simple **FREE** steps and be in full control, safe in the knowledge that you are fully protecting yourself online!
